Dline for #114: Send logs out no later than 1/24/94

Wow, this is a huge issue—prob the biggest in a few yrs. Sorry for the long delay. My son got chicken pox on Xmas eve and I got the flu on NYrs eve & had 101 + fevers for 4 strait ds (which turned into a sinus infection that might my face feel like exploding). This pretty much ruined my DXing over the holidays. Also, I finished an antenna book. With all of my sick days & holidays, I got behind @work & cudnt get #113 done. Also, we're moving in 2 wks (BRS add will stay the same). So, now my life is starting to fall back into order & maybe I'll even have a chance to hear some more pirates soon!

1994 Pirate Logbook & Directory Nah, they're not out yet, but they're coming soon. The cost to PiPa members for both is \$16 + \$2 p/h if you order before 3/1. After that point, it will go up to \$17 + \$2 p/h for both. Price for either Pirate R. Directory or Worldwide Pirate R. Logbook (separate) is \$10 + \$2 p/h. Make all checks to Snallygaster Press & send to either BRS or PO Box 272, Springs, PA 15562

his PiPa is late cuz our electrical system in our new house blew over the wknd. It's being fixed as we write this. If everything gets straightened out, I mite actually get a chance to listen soon! I'm setting up my radio room & this'll hopefully lasso some of my organizational problems. If it doesn't, at least I'll have a neat room PACKED w/junk!

The SWL Winterfest is comin up & I know some PiPa & ACE folks'll be there, myself included. Not sure if there's gonna be a pirate talk this year or not—I really haven't heard anything about it yet. Either way, there shud be plenty of pirate radio info/talks/etc there. Hope to see ya'll there!

Dline for #119: Send logs out no later than 4/18/94

Computer Pipa logs, etc? Thanx to positive prodding of a few people, I bought a 14.4 KB modem & I'll soon be up on America On-Line/Internet. When I get my cable & figure out how to use everything, I hope to be able to send messages & download computer logs. This'll save U computer folks time & \$ & it'll save me time. Also, I'm considering posting PiPa issues to save people \$ in sub fees. I do wonder abt the FCC pulling in this info, tho. Any thots, cmmnts, etc on the matter?

Notice! PiPa is taking a summer vacation--the next issue will be out around 8/23. Send logs out no later than 8/19. Everything from this #120 to 7/30 will be covered with stn name, time, date, freq & reporters' names--no details. #121 will cover from 8/1 to 8/19 with regular PiPa logs. As you can see, this is certainly NOT the end for PiPa--I just can't spend the extra 5-10 hours every other week on it right now. If I do it, I'm meat. I'm really sorry about takin' a dive for a few months, but I don't have much of a choice. The BRS add will work fine (maybe even better) over the summer & the 1993 Logbook is almost done (really!). It's 1/2 layed out right now.

If you wanna submit logs throughout the summer, go ahead! It'll help out for #121. As I said, I won't be printing any details for logs from May thru July, so ya don't need to include details. If ya still want to, tho, I will be more than happy to read'em! I'll continue to lurk on the ANARC BBS on the ACE, SW, Ham tech, & For Sale sections. I'll probably hafta limit my time there, too, cuz it's REALLY addictive!

The deadline that I'm trying to meet is for a car stereo book that I'm writing. I'm presently awaiting speakers, so I can install an amp & a DC-777 in my car. If yer into car stereo or have any tips/info on the DC-777, drop me a line & I'll be sure to riddle you w/questions!

Deadline for #122: Send logs out no later than 9/6

Howdy again! It's great to be back w/PiPa. The car stereo book is all done & turned in, tho it needs a few minor additions. I wrote 95,000 words in 4 months & I was REALLY worn out by the end (2 days ago). But, I got a few nites of sleep & started to work on PiPa & shoveling out my unanswered mail. Whew!

I haven't been on the ACE BBS for a few months cuz my computer blew up. I borrowed a puter to get a few o/t logs that're here. I don't have the \$\$ to get a puter yet, so I can't download yer logs or upload the PiPa for now. If you have (or know of) any cheap 286 laptops around pls lemme know!

This PiPa was s'posed to include all of the logs from the past (missing) months. However, Chris Lobdell printed the "Free Radio Page" (1-5) in its place. It's got all of the logs in it from that time period. If ya want back issues of the FRPage to fill yer collection, send Chris a few stamps via POB 146, Stoneham, MA. I rxed some summer logs de: Joe Filipkowski, Phil Burbules, Bill Hassig, & Mike Leclerc. If yer a stn op & wanna QSL back rpts, just drop me a line & I'll photocopy'em for ya. Tnx!

Yeah, I know that folks haven't gotten their 1994 *PRDs & Logbooks* yet. We've been closing down Snallygaster & the whole thing's been a mess. If you ordered stuff, you'll be getting it soon & it'll have a note of apologies & explanations. BTW, if ya didn't order the *Pirate R. Directory*, the cost is \$10 + \$1 p/h (save \$4 from reg price)--and you WILL receive it quickly (unless they get lost in the mail)! Also, if ya wanna bribe CSIC back on the air, buy a CSIC t-shirt for \$10 + \$1 p/h. They're here (via BRS) & you'll get yers quick...guaranteed. Make out any checks to Andrew yoder

My new home phone is (717) 749-3631. It's unlisted this time so that the FCC & bootleggers don't harass me & give my # out over the air. It's ok for you folks to call, tho.

I loved SW Liberation, where diff pirate stns were on every day for 31 strait ds. I've hrd differing views on it, but I thot it was gt! Hope this kinda "school spirit" keeps up thru the fall...

Hot freqs: 7375, 7385 (before RFPI), 7395, 7415, 7445. Others?

For some interesting tlk on pirate QSLs, check the ACE BBS.

I've hrd some tlk abt CB converters for the 6 MHz area. Any info available? I'm sure there's some interest among PiPa readers...

I'm starting work on *Pirate R. Stns (2nd Edition)*, which shud be out in 95 on HighText. I'm hopin' that it'll have a recording of pirate segments included (either on CD or cassette), so if you pirate ops out there have any studio copies available, I'd appreciate it. No guarantees on if or how much of yer stuff'll be used (I don't even know if the recording'll be possible), but I'll try. Also, sample QSLs, stn info, photos, etc are GTLY appreciated!

I'm also getting the "Hands on Pirate Radio" book together for Loompanics. It's most of the way done & it shud be sent off in the next few months. If ya wanna submit any photos (black & white pls!), they'd also be GTLY appreciated!

I'd better stop now before I wear out my welcome...

Nice to see lotsa contributors back this time! Absolutely tons of activity over the past few wks! Gt to see so much on. The next PiPa shud be enormous, too! This PiPa is a day or 2 late cuz I waited for the Labor day logs to come in...only 2 more logs came in. Oh well...A lot more stns are on now, but it seems like much fewer SWLs are hearing each pgm. Strange trend, not sure if its cause for concern or not...

I've now got official word that the 2nd edition of *Pirate Radio Stations* will come with a CD (containing audio bits from lotsa stations). 10/94

Deadline for #128: Send logs out no later than 11/28

In addition to the CSIC shirts, He Man R shirts are also gonna be available soon via BRS. These shirts aren't being done by me, so I don't know what type of shirts'll be used, the design, etc. But, you'll be able to order them thru the BRS add...

Free issues of PiPa?

Yessirre. The USPS already makes enuf \$ off of pirates & DXers. So, if you run a pirate (whether you use the BRS add or not), send your QSLs here (enveloped & stamped, with the envelope unsealed, please). I will then stuff the current PiPa in with the QSLs to PiPa members. Other QSLs'll get ad slips for stuff, such as CSIC t-shirts. I was gonna announce this policy in the big PiPa #120...but it hasn't happened yet. I can announce that the op of Down East Radio will get yet another free issue of PiPa for the QSLs he sent in. So, if ya wanna save some \$\$, send QSLs to BRS...

Fax to PiPa?

Yep, ya can fax logs in to me again @work. Just try to fax all logs at once & not 5 diff faxes for 1 PiPa issue. The # to call is (717) 794-5344. PLEASE do NOT put in extra tlk abt pirate radio! Send that stuff to POB 109.

I've been digging thru alotta old articles, PiPAs, ACEs, etc. to get info for the 2nd edition of *P.R.Stns*. Lotsa gt stuff! I finally even located my back issues of PiPa. One thing that bothers me is just how many of the "old folks" from the scene (who used to write & report) no longer are interested. I'd think that most DXers who were real pirate heads would remain at least marginally interested & occasionally check out a station or send a report. Hope staying in the scene becomes more of a trend...

PiPa has always been intended to keep some fire under the logs of the pirate scene. I'm sending out a floppy with 30? PiPAs on disk to the Free Radio Net BBS & I'm trying to get more new issues out on line to keep the cheap flow of info rollin'. I have been sending out a few (or many) PiPa issues out to people after their subs've expired, just to try to keep'em interested in the scene. You can see when yer sub ends by looking at the number that's to the right of your name on the mailing label. If ya want to keep getting PiPa, pse send in \$ to update yer subs! If ya are happy with getting PiPa online & don't wanna get it hardcopy, pse lemme know so that I can be more regular with getting it out. If yer not that interested in pirate r., pse write & tell me why so that I can try to coerce ya into at least checking it out every few months!

Deadline for #129: Send logs out no later than 12/27

Deadline? Oops, I cudn't figure out why I received so many logs last week & so few this week...It's cuz I set the deadline a week too early. As a result, this issue is very slim logwise! Sorry. The deadline for the next issue is right after Christmas & the mail might be slow. Faxing might be a good way to get your info in--especially if you live more than 500 miles from BRS. I decided to split the Xmas & New years holidays into 2 different PiPAs to get the info out faster. Hope this helps ya'll out...

I got a list of great files from the Free Radio Network BBS...all kinda neat stuff about pirate radio, shortwave radio mods, phone phreaking, SWBC skeds, frequency lists, etc. The baud rate is 1200-14.4K, no fees. Call (417) 624-1809 for info! I can't wait to check it out when I finally get a 286+ computer!!

I got official word that the 2nd edition of *Pirate Radio Stations* will come with a CD (containing audio bits from lotsa stations). If yer a pirate or if you have soem old pirate recordings, please feel free to send 'em in! Thanks much to Bud Wooten for the off-air tapes of VoVoyager and Hope R! The 60+ minutes of pirate clips on CD outta be a really neat! Speaking of which, does anyone have off-air audio from the following stns: VoNite, WPIG, ...In a related matter, WLIS wants different pirate IS to use for an all-pirate IS pgm. Send tapes to for either to BRS add...

Free issues of PiPa?

Yessirre. The USPS already makes enuf \$ off of pirates & DXers. So, if you run a pirate (whether you use the BRS add or not), send your QSLs here (enveloped & stamped, with the envelope unsealed, please). I will then stuff the current PiPa in with the QSLs to PiPa members. Other QSLs'll get ad slips for stuff, such as CSIC t-shirts. I was gonna announce this policy in the big PiPa #120...but it hasn't happened yet. Thanks for the support! The ops of NAPRS, R. Airplane, R. Doomsday, WLIS, Q.S.L., etc are getting free issues of PiPa for their QSLs sent in. So, if ya wanna save some \$\$, send QSLs to BRS...

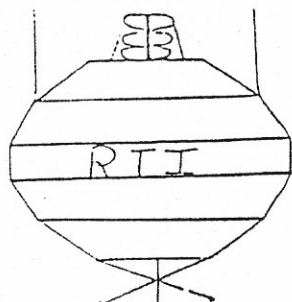

Fax to PiPa?

Yep, ya can fax logs in to me again @work. Just try to fax all logs at once & not 5 diff faxes for 1 PiPa issue. The # to call is (717) 794-5344. The best days to fax are the Wednesday & Thursday (before noon) after the deadline. If ya wait until the Friday after the Dline, it mite be too late. PLEASE do NOT put in extra tlk abt pirate radio! Send that stuff to POB 109.

Deadline for #131: Send logs out no later than 1/9

I tried to get more logs for this issue de the ACE BBS from a friend's house, but I couldn't remember my old password & the BBs wouldn't accept new users, like it used to. Oh well. As a result, some of ya'all'll have logs that won't make it thru the USPS in time. Maybe some of this will work out better next time...

Thanks to all for the very nice Christmas cds!! There're loads of gt logs in this issue, lotsa activity! I didn't catch a lot, but I did catch some & there shud be a bunch on for New Yrs! Hope it all keeps up!

The book *Auto Audio*, which I took the summer off to finish, is finally done & back. Shud be in stores soon. Whew. Somehow I figured out a way to get a R.Airplane sticker/illustration in it. Another project comin up later is *Traveler's Guide to Shortwave* & I'll prob try to work a pirate illustration into it.

Deadline for #131: Send logs out no later than 1/9

I got a list of great files from the Free Radio Network BBS...all kinds neat stuff about pirate radio, shortwave radio mods, phone phreaking, SWBC skeds, frequency lists, etc. The baud rate is 1200-14.4K, no fees. Call (417) 624-1809 for info! I can't wait to check it out when I finally get a 286+ computer!!

I got official word that the 2nd edition of *Pirate Radio Stations* will come with a CD (containing audio bits from lotsa stations). If yer a pirate or if you have some old pirate recordings, please feel free to send 'em in! Thanks much to Bud Wooten for the off-air tapes of VoVoyager and Hope R! The 60+ minutes of pirate clips on CD outta be a really neat! Speaking of which, does anyone have good off-air audio from the following stns: VoNite, WPIG, Hope Radio w/MJ,? ...In a related matter, WLIS wants different pirate IS to use for an all-pirate IS pgm. Send tapes to for either to BRS add...

Got info from R.Copan Intl. They'll relay pirate pgms on 15675 kHz w/1 kW from 1900-0200 UTC for \$25 for 60 min, \$12.50 for 30 min. I'm not sure how the N.American signals are from this stn. It mite be cool or it mite be a waste of \$. For info, write: R.Copan Intl, 8500 SW 8th St., Suite 252, Miami, FL 33144. I've had sigs from 'em that've varied from inaudible to fair...

In addition to the CSIC shirts, He Man R shirts are now available via BRS. He Man sez they are bright yello on Manly green. Sizes: XL & only 15 L. Send \$10 + \$2 s&h. Make any checks payable to Andrew Yoder, but everything (printing, mailing, etc) is being done by He Man for these puppies.

I tried to get more logs for this issue de the ACE BBS from a friend's house, but I couldn't remember my old password & the BBs wouldn't accept new users, like it used to. Oh well. As a result, some of ya'all'll have logs that won't make it thru the USPS in time. Maybe some of this will work out better next time...

Thanks to all for the very nice Christmas cds!! There're loads of gt logs in this issue, lotsa activity! I didn't catch a lot, but I did catch some & there shud be a bunch on for New Yrs! Hope it all keeps up!

The book *Auto Audio*, which I took the summer off to finish, is finally done & back. Shud be in stores soon. Whew. Somehow I figured out a way to get a R.Airplane sticker/illustration in it. Another project comin up later is *Traveler's Guide to Shortwave* & I'll prob try to work a pirate illustration into it.
